

eCab™

Flexible & Cost-Effective, High-Volume Vending

The eCab is CribMaster's cost-effective solution for managing and vending a wide range of inventory types including high-volume consumables and durable items. Within one cabinet, the eCab provides easy access to the range of indirect materials needed at the point of use. Driven by CribMaster's Inventory Management software, the solution helps to reduce consumption and replenishment costs.

- Easily track consumption and replenishment of fast-moving indirect materials
- Flexible configuration allows for vending of a wide variety of inventory
- High-capacity double cabinet vends more than 200 SKUs
- No repackaging of product necessary
- Comes standard with Bluetooth barcode scanner

eCab Configurations

The eCab is available in single or double cabinet configurations and comes standard with wheels and feet for easy movement. The eCab has clear pullout shelving for easy access, and shelf placement options provide ample space to house different-sized inventory.
