

Easy  
management  
of low cost,  
high volume  
items.

**FlexSense™**  
Flexible Inventory Automation

FlexSense is ideal for managing low cost high volume items, providing real time information that reduces labor cost and helps prevent stock-outs.

## Sensor Platform Features

- LED indicator lights provide visual overview of inventory levels
- Divider plates keep each bin securely on its assigned platform
- Sensor platforms can be used with existing or custom bins and shelves

## FlexSense Accessories\*\*

- Racks
- Casters
- Bins
- Slanted Shelf Spacers
- Monitor Display

## Software Features

- Available with Windows OS for increased network support
- Manage up to 50 bins in a single dashboard
- Fill percentage and color coding allow for fast assessment of bin levels
- Configurable for critical supply alerts only or automatic reorders
- Accessible on any web-enabled device
